## What Is BRAIN?

---

Program for middle and high school underrepresented minority students to:

- explore the biostatistics, statistics, STEM, and health science/health care fields.
- engage in hands-on research projects with clinicians at local and international academic and health care institutions.

## BRAIN Students Gain:

---

- Participation stipend.
- Transportation and food stipends.
- International travel and awareness of other cultures.
- Opportunities to publish in a journal and attend professional conferences.
- Leadership and public speaking skills.
- Networking with minority health professionals.
- Volunteer hours at medical institutions.
- Statistical software knowledge and programming skills.
- Data analysis skills.
- Clinical research experience.
- Jump start to careers through valuable field experiences.
- Credit for Project GRAD Summer Institute and Upward Bound TRIO programs.

## Eligibility:

---

- BCLC 8th—12th grade student.
- Commitment to volunteer a maximum 20 hours per week during summer.
- Interest or curiosity in STEM or health science fields.
- Passed Algebra I.
- Minimum 2.75 GPA
